

Kiilto Pro Textile Liquid

Non-perfumed textile washing liquid

The familiar Kiilto Pro Green Textile Liquid is now Kiilto Pro Textile Liquid. The product has been given a new name and an updated formula.

Kiilto Pro Textile Liquid is an effective textile washing liquid for coloured and white textiles.

Application

- For washing textiles with varying degrees of soiling.
- Can be used for washing temperatures of 30-95 °C.
- Possible applications include washing white textiles and microfibre textiles.
- Intended for professional use.

Product properties

- In professional textile care, maintaining fabric quality while ensuring effective dirt removal is essential, especially for cleaning textiles like microfiber cloths. Kiilto Pro Textile Liquid provides powerful yet gentle washing performance, efficiently removing dirt from different textiles.
- Kiilto Pro Textile Liquid contains colour protectant, keeping the colours of the washed textiles bright and beautiful. This applies for coloured and white laundry. The detergent does not contain any dyes, brighteners, perfumes, preservatives or bleaching agents, making it safe to use for most textiles that can withstand machine washing.
- Its low-foaming formula enhances washing efficiency and rinses off easily. Kiilto Pro Textile Liquid is also free of phosphorus, allowing it to meet even more stringent environmental criteria than those set by Nordic Swan Ecolabel.

Instructions for use

- Follow the washing instructions on the textiles. Sort the laundry by colour, fibre and type of dirt. Wash new coloured textiles separately. Always wash dark textiles separately from the light. For sensitive materials such as wool and silk, we recommend liquid Kiilto Pro Sensitive Wash detergent.
- Dose Kiilto Pro Textile Liquid into the dispenser drawer. Adjust the amount based on the laundry's level of soiling and the water hardness. Refer to the dosing table below for guidance.
- When washing cleaning textiles, use only half of the recommended dose.

Water hardness	6 °dH	6-13 °dH	> 13 °dH
Slightly soiled	4 ml / kg	5 ml / kg	7 ml / kg
Medium soiled	6 ml / kg	8 ml / kg	10 ml / kg
Heavily soiled	7 ml / kg	10 ml / kg	12 ml / kg

Note	<p>Amount of washes per packaging size:</p> <p>5 l: 185 washes in soft water or 138 washes in medium hard water</p> <p>20 l: 740 washes in soft water or 555 washes in medium hard water</p> <p>The number of washes is based on the dosage for a standard machine load (4,5 kg of dry fabric) according to the Detergent Regulation.</p>

Ingredient		Effect																					
Anionic surfactants	< %	Particular soil removal																					
Polycarboxylate	5%	Prevents redeposition of soil on the fabric																					
Phosphonates	<5%	Binds agents related to water hardness																					
Citrate	<5%	Binds agents related to water hardness																					
Soap	<5 %	Soil removal and defoaming																					
Non-ionic surfactants	15-30%	Greasy soil removal																					
Other composition	Enzymes, PVP																						
Product pH	9.5 weakly alkaline																						
Solution pH	9.0 weakly alkaline																						
Storage	Must be stored cap closed in temperatures above 10 ° C. Effective shelf life is 3 years from manufacturing when stored properly.																						
Appearance and scent	Yellowish, liquid Non-perfumed																						
Country of manufacture	FINLAND																						
User and environmental safety	<p>The packaging can be recycled after use: we recommend that empty rinsed containers are recycled and reused as material. They can also be reused for energy. The transport packages are recyclable.</p> <p>Kiilto Pro Textile Liquid is Nordic Swan labelled. Nordic Swan Ecolabelled products meet strict environmental requirements based on a life-cycle approach. This considers factors such as the origin of raw-materials, energy consumption during production and use, as well as the waste generation throughout the entire production and consumption chain. It also means that Kiilto Pro Textile Liquid fulfils strict demands for biodegradability.</p> <p>The Allergy label, granted for Kiilto Pro Textile Liquid by the Finnish Allergy, Skin and Asthma Federation, indicates that the product doesn't contain fragrances or commonly sensitizing or irritating substances.</p> <p>Kiilto Pro Textile Liquid also has the Key Flag Symbol. It is a registered mark demonstrating that the product has been manufactured in Finland.</p> <p>Lastly, Kiilto Pro Textile Liquid contains no animal-derived ingredients and has not been tested on animals.</p>
