

Acidofix-Gel

Viscous sanitary descaler

- ▲ Powerful acidic descaler to remove poorly soluble mineral impurities
- ▲ Removes stubborn lime residues and lime soap
- ▲ Good adhesion of the product thanks to the high viscosity, even on vertical surfaces
- ▲ Free of hydrochloric and phosphoric acid
- ▲ Can be diluted with a ratio of up to 1:20
- ▲ Can also be used in a foam gun

Area of application

Can be used on acid and water-resistant surfaces and objects in sanitary areas. Acid-sensitive surfaces, such as damaged chromium coatings on fittings, brass, anodised aluminium, polyamide and acid-sensitive natural and artificial stone, can be damaged by products containing acid.

Application

Please test on a small inconspicuous spot before first application. Always water joints and fittings beforehand with cold water. Do not allow the product to dry. Adjacent areas and objects must be protected. Rinse all treated surfaces with water.

Basic cleaning (toilet bowls):

Spray undiluted product under the toilet rim or onto the surface to be cleaned and clean with the toilet brush. Flush with water after a short reaction time. Consumption: 10.0 ml/m².

Intensive cleaning (surface cleaning):

250 ml to 4 L of cold water.

Wet the surface with cleaning solution and clean with a cleaning textile. Consumption: 2.0 ml/m².

Basic cleaning (removal of limescale/descaling):

1 L to 10 L of cold water.

Wet the surface beforehand with water. Distribute the cleaning solution on the floor, leave to react for a short time, scrub, vacuum the dirty solution, rinse thoroughly with water. Consumption: 35.0 ml/m².

Foam cleaning:

Fill the container with undiluted product. Choose a nozzle setting of 1:4 to 1:10 depending on the degree of soiling, work the foam into the surface and rinse with water after a short reaction time. Consumption: 50.0 ml/m².

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, organic acids, water-soluble solvents, dyes.
pH value (concentrate): < 0.5

pH value (ready-to-use solution): approx. 1

Classification

Classification (in concentrate): GHS05, Danger. H314 Causes severe skin burns and eye damage. H412 Harmful to aquatic life with long lasting effects. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Contains: Methanesulphonic Acid (INC)
