

# Kiilto Kisu

## Stone protection for ceramic tiles

Impregnating agent for the protection of stone and tile floors and their joints. Absorbs into surface pores and leaves no visible film.

|                                      |  |               |
|--------------------------------------|--|---------------|
| <b>Application</b>                   | Impregnating agent for protecting stone and tile floors and their joints.  |               |
| <b>Product properties</b>            | Impregnating agent that is easy to apply, forms an invisible and effective protective layer on stone floors. Does not leave a film, does not make the surface slippery. Dries quickly.   |               |
| <b>Instructions for use</b>          | <p>Apply Kiilto Kisu as a thin even layer on dry and clean floor. Apply with a clean mop or polish applicator. Usually, apply one layer of Kiilto Kisu, on porous surfaces 2–3 layers. Let it dry for a minimum of 30 minutes between applications. The colour of the surfaces may deepen in connection with the treatment. A surface treated with Kiilto Kisu cannot be painted, lacquered or waxed.</p> <p>Drying time approx. 60 minutes under normal conditions. Minimum working temperature +15°C. Covers 30–70 m<sup>2</sup>/l, depending on the porosity of the surface.</p> <p>Surface patch-up: clean the floor with Kiilto Teho A 100 and apply one layer of Kiilto Kisu on fully dried surface where worn.</p> <p>Maintenance cleaning: normal manual or mechanical methods using e.g. Kiilto 10 Universum or Kiilto Teho A 100 as the cleaner.</p> |               |
| <b>Composition</b>                   | <b>Ingredient</b>  | <b>Effect</b> |
|                                      | Sodium Benzoate  | Preservative  |
| <b>Product pH</b>                    | 5.0 acidic   |               |
| <b>Storage</b>                       | Warm storage.  |               |
| <b>Appearance and scent</b>          | Transparent liquid   |               |
| <b>User and environmental safety</b> | Avoid unnecessary skin contact. Safety gloves are recommended in continuous use. In case of eye contact, rinse with copious water and then contact a doctor, if necessary.
