

ARCANDIS-Presoft

Gentle pre-treatment cleaner

- ▲ Liquid pre-cleaner for crockery, cutlery, pots and containers
- ▲ Fast and thorough removal of dried-on, stubborn food residue
- ▲ Low-foaming
- ▲ Guarantees an optimum cleaning result for the subsequent mechanical dish washing
- ▲ Pre-cleaning reduces the dirt level for the washing solution
- ▲ Neutralises unpleasant odours
- ▲ Protects the material
- ▲ Does not require CLP Regulation markings

Area of application

For the pre-cleaning of alkali-resistant crockery, cutlery, pans and containers prior to mechanical dish washing.

Application

Please test on a small inconspicuous spot before first application.

Mechanical dish washing:

50–100 ml to 10 L of water.

Fill stainless steel bowl with water (30°C bis 40°C). Depending on the level of soiling, pour the correct dosage of the undiluted cleaning product into the immersion tank and leave to take effect for 10 to 30 minutes. Then clean the dishwasher as normal. The immersion bath should be replaced in good time depending on the level of dirt on the dishes. Consumption depends on the level of soiling and the amount of water.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, amphoteric surfactants < 5%, alkalis, additives.
pH value (concentrate): approx. 11

pH value (ready-to-use solution): approx. 8.5
