

ARCANDIS-Salt Granulate

Coarse dishwashing salt

- ▲ Highly purified, coarse special salt for use in dishwasher water-softening units
- ▲ For the regeneration and backwashing of ion exchangers
- ▲ Special salt dissolves without residue
- ▲ Protects the dishes and the dishwasher from limescale deposits

Area of application

Special salt for softening water for all dishwashers.

Application

Please test on a small inconspicuous spot before first application.

Mechanical dish washing:

Fill the product into the salt container in line with the machine manufacturer's instructions. Please consult the instruction manual for your dishwasher. Consumption: no indication possible.

Consumption depends on the water's mineral content, the type of ion exchanger and the machine's performance.

Ensure an optimum cleaning result by combining with Kiehl dishwasher detergents and Kiehl rinse aids.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1!
